**Animal Welfare Advisory Committee**

Date: February 12, 2025

Time: 1:00 pm

Location: Community Support Services, Conference Room A  
218 SE 24th Street, Gainesville, FL 32641

Members Present Chelsea Bower, Melissa Jenkins, Perry Koon, Jennifer Applebaum, Patricia Gordon, Jacob Schaeffer, Kristen Young, Julie I and Svetlana Korokevitch

1. [Call to Order](#)

**Staff Present**

- Julie Johnson
- Sarah Gilley
- Blake Jacoby
- Cecelia Albright

**Members Present**

- Perry Koon
- Chelsea Bower
- Melissa Moomaw
- Kristen Young
- Julie Levy
- Svetlana
- Jacob Schaffer

The meeting was called to order at 1:00pm by Perry Koon.

2. [Approval of the Agenda](#)

Melissa Moomaw made a motion to approve the agenda as presented; Chelsea Bower second; unanimous approval; motion carried at 1:01pm.

3. [Approval of Minutes 11/20/24](#)

Kristen Young made a motion to approve the November 20th, 2024 minutes as presented; Melissa Moomaw second; unanimous approval motion carried at 1:01pm.

4. [Public Comment](#)

Public comment begins at 1:03pm.

Citizen Chris Deutch opens public comment. Chris follows posts about found animals and quoted 8 animals were found with injuries, asked about the euthanasia of animals that had medical issues being euthanized if the injuries were survivable. The other item was neglect concerns regarding horses. Someone Chris knew reported an older horse that had pasture and hay but had poor teeth and was still emaciated. Chris asked the committee if there is a procedure in place for livestock.

Citizen Dotty had a question regarding Agenda Item 6.2.1, asked if meetings were going to be happening more or less frequently.

Kathleen Rupert stated she was concerned about the county entering a sublease with the University of Florida at Swine Unit. Kathleen has voiced these concerns over the course of a year. Kathleen knows the committee serves in an advisory role and has asked the committee to review the current version of the documents and provide individual comments to the Board of County Commissioners. Kathleen believes the University of Florida is a wonderful organization but also believes they are a business as well and will do everything they can to maintain control of their property. Kathleen is on record for being against this agreement for a number of reasons: the soil, runoff from the hardscapes, noises, traffic congestion now and in the future, ability for ACAR to respond in a timely fashion to emergencies. Kathleen asked if there are not opportunities for veterinary students already in place and asked why put millions of taxpayer money on the line. Kathleen stated committee members cannot change policy but can voice opinions. Kathleen has requested a public records request for the characteristics and requirements the county needed to build a facility but was told that information is still being put together. Kathleen asked why it is so hard to put this information together. Kathleen prepared a packet with copies of the current draft agreement, copies of the master plan, and her notes in the margins and highlighted areas of concerns. Kathleen asked the committee to review these documents from the viewpoints of the animals, environment, staff, volunteers, students, and public monies. Julie Johnson asked Kathleen she had copies available, Kathleen responded yes and distributed these documents to the committee members. This has been attached to the minutes for this meeting.

Adele Francin introduced herself as an avid animal supporter. Adele stated it was disturbing to get information via comments on abuse and inadequate care at Animal Services and alleges that some of the people have been contributing to and perpetuating an abusive environment and unsanitary conditions, and she does not know a source that has followed up. Adele requested a third party, independent investigation and asked if this has been discussed at any county board meetings and if it is still being investigated.

## 5. [New Business](#)

Discussion of New Business began at 1:13pm.

### 5.1 [Introduction to New Members](#)

Julie Johnson requested the members went around the table and introduced themselves as new members have joined the committee. Svetlana , alternate, is from the USSR and has lived in Gainesville for over 30 years. She has rescued many animals and wants to make a difference. Jacob Schaffer,, introduced as the Animal Welfare Manager at GRACE and ensures animals are vaccinated, healthy, on proper diets, and owners have information on sterilization services. Perry Koon, Chair, introduced as having worked large animal investigations for over 20 years. Julie Levy,dr, introduced as a professor and director of the Shelter Medicine Program at the University of Florida and the founder of Operation Catnip. Kristen Young,, works with the Wagmore Foundation and has been involved in pet rescue for 20 years. Melissa Moomaw,, introduced as the Director of Operations at Operation Catnip. Chelsea Bower introduced as the Executive Director of the Humane Society of North Central Florida.

### 5.2 [Medical Treatment Protocols](#)

Discussion of Medical Treatment Protocols began at 1:16pm. Julie Johnson stated Dr. Sheila Robertson, introduced by Julie Levy, is a pain specialist and recently came to ACAR for a presentation and showed staff how to assess pain and provided the Glasgow Scales and introduced the app for the Feline Grimace Scale to objectively identify signs of pain in the shelter. There are sets of questions regarding ears, muzzles, whiskers that can assist in scoring pain. Julie stated after the letter came forward, ACAR wanted to do its part to investigate the claims and learn from experts in the field. Perry Koon asked if what Dr. Robertson presented is already being done by staff, Julie responded yes but primarily the paper version at this time. Perry suggested utilizing iPads for the app, Julie responded that there are now iPads at the shelter for staff to utilize. Julie Levy asked how what was presented was being utilized in daily protocols, Julie Johnson responded she would defer to the Medical Team to explain their protocols for addressing pain, but the front line staff, Kennel Technicians, and officers can now gather the appropriate information to report signs of pain. Melissa Moomaw asked what the protocol is for pain management after assessment and what agency the staff has to begin addressing pain and how quickly the veterinarian is brought into the conversation to address these issues. Julie Johnson responded Dr. Stephenson does have written pain protocols but the medical team still has to approve of prescriptions. Julie explained staff can notify Dr. Stephenson at any time of medical emergencies, and if there is no response staff can seek out medical emergency options at offsite clinics. Melissa Moomaw requested to see the pain protocols at the next meeting. Kristen Young asked if every staff member is trained to recognize pain, Julie Johnson responded every staff member was required to attend the presentation, but many medical cases will go straight to the medical team in most cases.

## 6. [Old Business](#)

Discussion of Old Business began at 1:26pm.

### 6.1 [Director Announcements](#)

#### 6.1.1 [New Shelter Update](#)

Julie Johnson provided a new shelter update. The new shelter is at the UF and County Manager's level, and they are finalizing details. The Commission did sign an agreement with an architect, Berelli and Partners, and their animal shelter consultant under the architect is the Baking Group based out of Florida, and they have 40 years of experience. They are dialed into both Florida and animal shelters. Julie is hoping to begin the next steps, regardless of the final location, because the design in itself would not change. There was a training called Zencity, which will be a public facing site that will assist in checking on the pulse in the community and determining what the community would like to see. Julie explained this would assist in reaching a broader audience in the community because not everyone may be able to attend an open house, so this increases accessibility. Chelsea Bower stated there will be an increase in need over time for services such as food banks. Julie responded she wants to incorporate ideas like this and feedback from the community into the design of the shelter. Julie wants the environment to be welcoming, open, and have the public feel safe and comfortable. Julie should be hearing more in the coming weeks and will provide the committee the link for the site. Kristen Young asked if other shelters were being used as a model, and Julie responded she has been to and looked at pieces from other shelters to incorporate from shelters in Arizona, the Houston SPCA. Julie Levy stated Heather Lewis gave a webinar about building shelters in Florida, and this could also be used as a resource.

### 6.1.2 Review of 2024 Statistics

A review of 2024 statistics began at 1:36pm. Julie Johnson responded to an earlier public comment section, stated front line staff may label an animal as treatable upon intake, but the asilomar is not always updated after medical examinations, and owner requested euthanasia may impact numbers. These are data entry issues that are being addressed. Melissa Moomaw asked what category return-to-field falls under, Julie responded outgoing transfers. Julie Levy stated Shelter Animals Count has shown surprising trends and asked if ACAR was a part of this count, Julie Johnson responded yes, and the statistics are automatically posted on their website. Julie Johnson stated they do not calculate a live release or save rate, and Julie Levy responded this committee could determine their own live release definition. Julie Levy explained shelters may take in more difficult cases, making achieving 90% no-kill challenging. There are varying calculations shelters can use: live outcomes over live intakes or live outcomes over all outcomes and various versions. Julie Levy stated unless a shelter is accumulating animals, these numbers should be similar, and the shelter can also start looking at numbers per thousand of the population. Florida will have bigger numbers due to total population but is doing less euthanasia comparatively. Julie Levy suggested a task force for this committee to review the statistics. Julie Johnson continued the conversation regarding no-kill shelters and explained many shelter workers she knows are receiving backlash over not hitting the 90% mark, but they do not have control over the animals they take in, and rural shelters may have more feral or unadoptable animals entering the system that cannot be placed in homes. The backlash can result in burnout and more staff quitting, creating divisive rhetoric. Julie Johnson stated every shelter is doing good work with the resources available and is thankful for the resources ACAR has in this community. Julie Johnson asked the committee to notify staff if there is a way they would prefer the statistics presented.

Kristen Young asked how the adoption rate has changed. Sarah Gilley responded the adoption rate has gone up, and in 2024 ACAR processed more than 1,800 adoptions. More dog adoptions were processed than cat adoptions, even though national trends are showing cat adoptions are on the rise. The total adoption number was the second most adoptions ACAR had ever processed and the most since COVID-19. Kristen Young responded it is helpful seeing statistics pre and post-COVID-19, and Julie Johnson responded the statistics are available on the website. Kristen Young asked what has assisted in the adoption number rising, and Sarah Gilley responded a focus of the staff has been collecting in-home behavior notes and presenting adopters with a better idea of what to expect outside of the shelter environment. ACAR had two successful pleas for fosters during the hurricanes, resulting in every dog returning to the shelter with in-home behavior notes, and the staff is continuing to push for short-term fosters. Julie Levy stated Summer Lovin' was also successful, and the tentative date for the event this year is August 9th. Julie Levy asked if there has been follow-up on the post-adoption support website, Petszel, and Julie Johnson responded she reached out again recently but has been in communication. Julie Levy is on the advisory board and stated this sends out surveys the staff can review and provides adopters with continuous support.

Julie Levy stated she is concerned about the future with the housing crisis, waves of layoffs, deportation on the horizon, and we should be proactive in hardening the community to service the pets. Melissa Moomaw stated the statistics are amazing, and we can be doing more to strengthen community partnerships. Julie Johnson stated despite the statistics being what they are that ACAR has remained full. Chelsea Bower suggested looking into partnerships with human service organizations to provide pet owners with available resources. Melissa Moomaw asked if ACAR has a relationship with an emergency clinic, Julie Johnson responded yes, with CCVS and Blue Pearl, though Blue Pearl was in the process of closing. Julie has been made aware that CCVS is working towards being available 24 hours. Melissa Moomaw shared a recent story of ACAR and Operation Catnip working together to save a community cat with a jar stuck on its head. Multiple caregivers and officers worked to catch this cat, and ACAR facilitated getting the cat to Blue Pearl to get the jar off, and Operation Catnip performed the cat's spay. Julie Johnson stated there have been many cases the shelter is working on thanks to the community being responsive and reporting situations to us, but there are times when staff has been working on a case, and discussion on social media can result in a case being wiped out. Julie explained we do not speak publicly on cases for the safety of the animals and everyone involved. People will believe everything they read on social media, this can spiral and set a case back significantly. People involved in cruelty cases may watch social media and move animals before the officers arrive, and these social media posts may spiral before our staff is made aware of posts. The goal is to get animals out of these situations permanently. There have been 7 cases the shelter is working on prosecuting currently, and the last 4 cases have been won. The shelter will not rush to judgment in these cases, the staff wants to ensure the owner is not someone who just needs help or resources and is not intentionally cruel. Julie stated the staff will look into a campaign to encourage reporting of cruelty situations without speaking publicly online. Kristen Young stated it is worth educating volunteers to have supporters assist in squashing online conversations about cases. Perry Koon stated his response to inquiries on cases is typically that it is an active investigation, and more information cannot be provided at this time. Perry stated he is more involved with large animal and livestock cases, but it can be a difficult balance keeping a complainant satisfied while not jeopardizing a case while evidence is being properly gathered. Perry explained there has to be enough evidence, so if the owner attempts to get custody of the animal back, a solid enough case will have been built. Perry also stated he will do everything is done correctly the first time and give owners an opportunity to fix things. Chelsea Bower responded trust is big, and animal control agencies across the nation have been resented for years because people expect instant gratification when reporting cases. Perry Koon offered to sidebar with Julie Johnson and

discuss responding to these complaints at a later time, but all that can be done is showing the community their passion is appreciated, and staff can acknowledge they are also passionate but know the rules the general public may not. Julie Johnson stated the staff wants to ensure both humans and animals do not suffer again. Julie Levy made a motion to establish a work group to review options for shelter data and metrics, seconded by Kristen Young. Unanimous approval, motion carried. Melissa Moomaw, Chelsea Bower, and Julie Levy volunteered to be in the work group with Julie Johnson. A meeting date will be established and posted after mid-March. Kristen Young asked if the reason for relinquishing animals could be a reviewed statistic, and Julie Johnson responded it can be difficult to categorize, but we can have that conversation.

## 6.2 [Committee Announcements](#)

### 6.2.1 [Revisit Frequency of Meetings](#)

The frequency of meetings was addressed at 2:20pm. Perry Koon stated the committee is meeting quarterly but can do special meetings at the staff's request. Melissa Moomaw agreed and stated this is an advisory committee, and ACAR staff can bring up when emergency meetings are needed. Perry Koon reiterated quarterly meetings are still going to continue as is, but the committee can be available for special meetings.

## 7. [Response to Public Comment](#)

Response to public comment began at 2:22pm. Perry Koon asked if there is a regulatory authority that inspects the shelter. Julie Johnson responded no but clarified that ACAR staff investigates animal cruelty. Julie explained there was a full investigation, and ACAR addressed how staff reports pain in animals and reached out to Dr. Robinson to update Medical Treatment Protocols. Julie stated no one enters the industry wanting to harm animals, and the staff has committed their lives to bettering the lives of animals. There are always things the shelter can do better, and the staff will continue to review this and address concerns as they are reported. There was a staff member not upholding the standard of cleanliness, and that employee was let go, and this was documented. ACAR strives to do better for the animals and community and wants to continue prosecuting crimes, removing animals from cruelty cases, and placing adoptable animals into homes. The staff will evaluate animals and determine if animals are safe to place back into the community after evaluating all potential situations that animal could encounter outside of the shelter. Looking at statistics, more than 2,000 animals entered the shelter, and almost 9,000 calls for service were answered with only 30-40 staff members at ACAR. The goal is to humanely save lives, prosecute those who hurt animals and break laws. The shelter remains at maximum capacity, but the shelter is a temporary home, not a permanent solution. There is a fine balance of managing what comes in and what goes out every day. ACAR will continue to work on being better and more transparent.

Julie Levy stated there has not been a shelter consultation in several years but now may be the time to do another consultation to help smooth protocols out and streamline communications prior to the new shelter being built. Julie Johnson responded she has been in shelter consultations before and is willing to explore this again. Chelsea Bower stated this will help build trust with the community.

Julie Levy wanted to make a comment regarding the bird flu, stated it is spreading across the country. Cats are susceptible to the virus, particularly cats that had been drinking milk from dairy cows. Julie Levy advised that staff should be looking for signs of URI and neurological signs. Julie Levy stated she can send more information to the committee.

Perry Koon stated he could address the comment regarding livestock. Perry explained there are two people who respond to those calls, and if someone reports a livestock concern, they will investigate. Perry stated these are case by case, and generally speaking, they will evaluate weight, feed, and ask general questions regarding the animal's history. They may make a recommendation of humane euthanasia and give the owner the option of following up with a veterinarian themselves, or they can reach out to the veterinarians. They will determine how much the owner is willing to contribute to fixing the situation and providing care. It will always be case-by-case, but concerns will always be addressed. Removing animals is a last resort because he wants to help the owner when possible.

Perry Koon responded to the comment regarding the new shelter. Perry Koon stated the stance of the AWAC is not concerned with the location. The committee knows a new shelter is needed, but the contracts and specific decisions is not what they can assist with. Perry stated the AWAC will support ACAR and assist ACAR with what they need to function and act as a public engagement body to answer the questions that can be answered.

## 8. [Next Meeting](#)

The next meeting was set for May 21st in the same location - Community Support Services, Conference Room A.

## 9. [Adjournment](#)

Kristen Young made a motion to adjourn the meeting; seconded by Melissa Moomaw; unanimous approval. Motion carried. Meeting was adjourned at 2:43pm.

Sec. 72.44. - Pet breeder regulations.

(a) *Definitions.*

As used in this chapter, the following words and phrases are defined as follows:

*Breeder* means both hobby breeder and commercial breeder, as defined herein.

*Breeder permit* shall mean a formal authorization issued by the county which allows a breeder to engage in a breeding of animals as provided for by this section.

*Commercial breeder* means any person, firm, partnership, corporation, or other association which, in the ordinary course of business, engages in the sale of more than two litters, or 20 or more dogs or cats, per year, whichever is greater, to the public. This definition includes breeders of animals who sell such animals directly to a consumer.

*Health certificate* means "Official Certificate of Veterinary Inspection" is as defined in F.S. § 828.29.

*Hobby breeder* means any person, business, or organization who breeds and/or raises dogs or cats for the purposes of transferring ownership with or without monetary compensation of no more than two litters, or 20 dogs or 20 cats, per year, whichever is greater.

(b) *Breeder permit requirements.*

- (1) No breeder shall cause or allow the breeding of a dog or cat, or offer a dog or cat for breeding or stud purposes, without first obtaining a breeder permit issued by the county. The cost of the breeder permit and other related fees shall be established by the board of county commissioners by resolution and shall be maintained in a fee schedule.
- (2) A breeder permit is valid for a period of one year from the date of issuance and must be renewed annually.
- (3) No breeder permit shall be issued or renewed to any applicant that has outstanding and unsatisfied civil penalties or unpaid citations imposed due to violations of this chapter.
- (4) A breeder permit is not transferable, assignable, or refundable. A breeder permit is limited to one per person, per business, and per organization.
- (5) Hobby breeder shall:
  - a. Not breed more than two litters or more than 20 dogs, cats, puppies, or kittens during a 365-day period; and
  - b. Not offer for sale, trade, receive any compensation for or give away more than two litters or more than 20 dogs, cats, puppies, or kittens during a 365-day period.
- (6) Commercial breeders may:
  - a. Breed at least two litters or at least 20 dogs, cats, puppies, or kittens during a 365-day period; and

- b. Offer for sale, trade, receive any compensation for or give away at least two litters or at least 20 dogs, cats, puppies, or kittens during a 365-day period;

(7) All breeders shall comply with the following:

- a. Keep records, for the duration of the breeder permit and for at least the three years from the date a breeder permit was issued, of the birth of each litter of puppies or kittens, and make such records available for review by animal resources upon request; and
- b. Keep veterinary records of rabies vaccinations, all other inoculations, and any medical condition(s) of each dog, cat, puppy, or kitten bred to be sold, given away, or otherwise conveyed, and all other records described herein; and maintain all veterinary and transactional records for each dog, cat, puppy, or kitten sold for a period of one year from the sale of that animal; and
- c. On a yearly basis, provide to animal resources the name, address, and telephone number of the new owner of each dog, cat, puppy, or kitten sold, given away, or conveyed by the breeder; and
- d. Furnish to each new owner of a dog, cat, puppy, or kitten with:
  - i. A copy of the complete record pertaining to the individual animal;
  - ii. The breeder permit number, providing proof and assurance that the animal was legally bred;
  - iii. The microchip number of the animal, and;
  - iv. A copy of the animal's health certificate, which must be signed on the date of examination by the examining veterinarian no more than 30 days before the sale of the animal per F.S. § 828.29(3)(c), and must include the veterinarian's license number. Each dog or cat offered for transfer of ownership must receive vaccines and anthelmintics against the diseases and internal parasites stated in F.S. § 828.29;
- e. Not offer a puppy or kitten under the age of eight weeks for sale, trade, other compensation, or gift, with the exception of animals taken to an animal shelter or an animal welfare organization; and
- f. Recommend to each new owner that any animal sold, transferred, or given away be examined by a veterinarian within one week of the date of transfer and notify the new owner of state and local requirements for rabies vaccinations and county licenses; and
- g. List the breeder permit number on all advertisements and literature concerning the sale or gift of any dog, cat, puppy, or kitten of the breeder; and
- h. Adhere to minimum standards regarding humane treatment and care of animals, as provided in Section 72.10 of this chapter; and
- i. Provide, when available, a medical history of the sire and dam to the new owner; and

- j. Present a copy of a valid, current health certificate to any enforcement officer upon demand for review; and
- k. If a dog or cat dies while in the possession of a breeder, the breeder shall secure the services of a veterinarian who shall document the animal's date of death and known or suspected cause of death; and
- l. Consent to allow an enforcement officer to view each animal that is the subject of a breeder permit and to inspect the premises where the animal is harbored, as well as the location where the breeding operation occurs.

An inspection the premises where the animal is harbored and where the breeding operation occurs shall not be made between 6:00 p.m. of any day and 8:00 a.m. of the succeeding day or in the absence of the breeder or the owner of the premise who is over the age of 18. Such inspection will be limited to that necessary to ascertain compliance with this section and with Section 72.10. If a breeder refuses to allow the enforcement officer to perform such inspection, animal resources may apply for a warrant pursuant to applicable provisions of F.S. Ch. 933 and the director may revoke the breeder permit as provided in Section 72.44(12). All reports of such inspections shall be in writing and maintained by animal services.

- m. Allow an enforcement officer to view and examine any and all records of the breeder, as described in Section 72.44(a)—(b), upon request.

(8) *Obtaining a breeder permit.*

- a. A person seeking a breeder permit shall apply to animal resources on a form approved by the county. The applicable fee must accompany the application for a breeder permit or its renewal.
- b. The applicant shall provide a completed application to animal resources and supply all information requested by animal resources. The permit application shall include, but not be limited to, the following information:
  - i. The name, address, and telephone number of the applicant;
  - ii. A statement as to whether the applicant has ever been found to have violated the prohibitions in this section, or has been convicted of the offense of cruelty to animals, under state law, or has been the subject of a final judgment entered under F.S. § 828.073, or any other Florida Statutes prohibiting animal neglect or mistreatment;
  - iii. A description (species, breed, sex, age, coloration) of each animal to be bred or used for stud under the permit;
  - iv. The physical address of the premise where the breeding will occur and where the animals will be harbored; and

- v. Verifiable proof that each animal to be bred or used for stud are current on rabies vaccination and county license.

(9) Reserved.

(10) *Exemptions.*

- a. Veterinarians and licensed animal hospitals providing animal reproduction and related veterinary services in the course of their business shall be exempt from this ordinance.
- b. Alachua County, animal services, and animal welfare organizations shall be exempt from the provisions of this section.

(11) *Violations and enforcement.*

- a. Failure by a breeder to obtain a breeder permit prior to using or offering to use an animal for breeding or stud shall constitute a violation.
- b. Counterfeiting a breeder permit or health certificate or maliciously destroying a breeder permit shall constitute a violation.
- c. Failure to comply with the requirements of this section shall constitute a violation. Violations of this section may be enforced pursuant to any mechanism pursuant to Chapter 24 and Section 10.08 of this Code.

(12) *Permit denial, revocation, and appeals.*

- a. The director may deny or revoke, any breeder permit application or breeder permit if it is determined that:
  - i. There has been a material misstatement or misrepresentation in the applicant or permit holder's permit application; or
  - ii. The applicant or permit holder violates any provision of Section 72.44; or
  - iii. The applicant or permit holder has been previously found in violation of Section 72.44 within the preceding two-year period; or
  - iv. The applicant or permit holder has been (a) found in violation of Section 72.10 of this Code or other federal, state or local law or ordinance relating to animal welfare, treatment, and care; (b) criminally charged or convicted of violation of a section of F.S. Ch. 828, including but not limited to, laws involving cruelty to animals; (c) has been enjoined by a court of law for possession or custody of animals or (d) has been subject to a final judgment pursuant to F.S. § 828.073; or
  - v. An animal under the care and responsibility of an applicant or permit holder has been found to be in need of immediate veterinary care that, if not treated, would result in suffering, pain, or death, and the applicant or permit holder did not address the medical need in a timely manner; or
  - vi.

A breeder has exceeded the maximum number of litters or animals permitted in this section; or

- vii. A breeder refused consent to an inspection of the premise identified in the breeder permit as provided in this section.
- b. No permit fee shall be refunded for a permit that is revoked or suspended.
- c. If a permit is either denied or revoked, animal resources shall provide written notification of the denial or revocation to the applicant or permit holder by certified mail, return receipt requested; hand delivery by an enforcement officer; or service in conformance with the provisions of F.S. Ch. 48, relating to service of process.
- d. An applicant or permit holder may contest a denial or revocation of a breeder permit by submitting an appeal in writing, received by the director no later than 5:00 pm on the fifth calendar day after receipt by the applicant or the permit holder of the written notification of the denial or revocation. Failure to timely submit an appeal shall constitute total and complete waiver of the right to appeal. The written appeal shall include a detailed statement of the basis for the appeal and include with it all supporting evidence or documents that substantiate the basis for the appeal. The county manager will consider a timely appeal and may conduct any inquiry that the county manager deems necessary. The county manager will issue a written determination either upholding or rescinding the denial or the revocation and provide a copy to the applicant or permit holder. The determination of the county manager shall be final and not subject to further appeal under this Code.

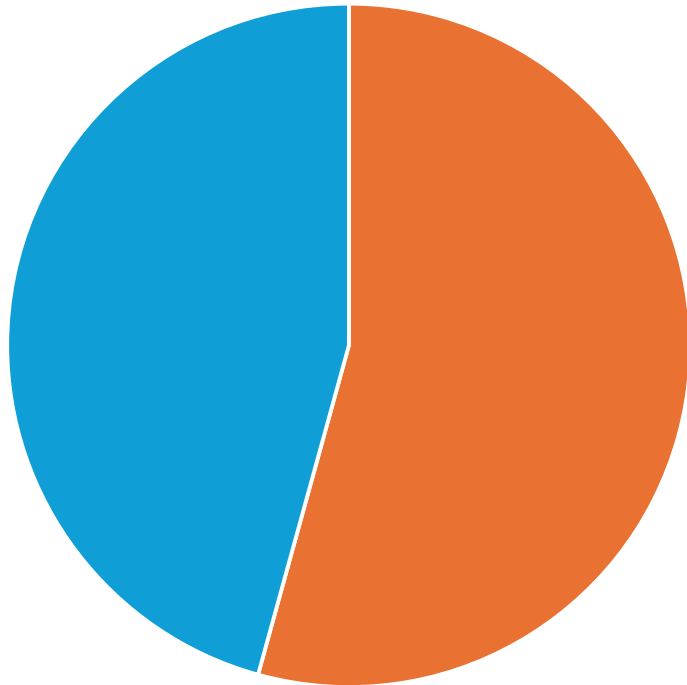

(Ord. No. 2020-18, § 1, 9-8-20; Ord. No. 2023-11, § 1, 6-13-23)

# 2024

A celebration of the work we did, the  
lives we saved, and the animals we  
loved

Intakes

■ Dogs ■ Cats

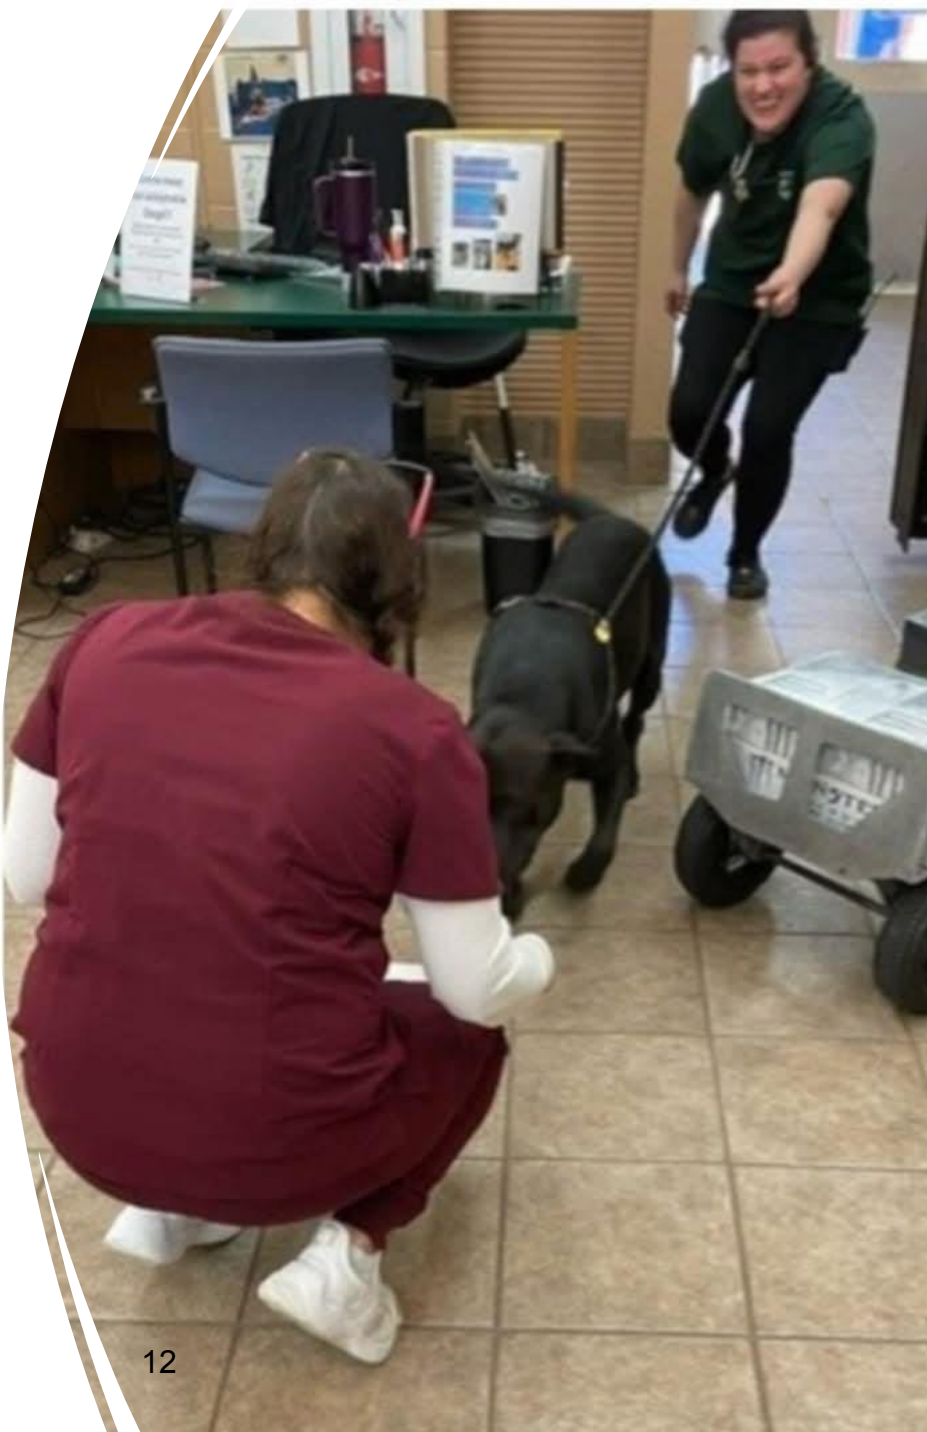

# We welcomed a lot of animals

- Intakes in 2024: 2,697
  - Dogs: 1,464
  - Cats: 1,233
  - 388 more animals than in 2023

# We reunited animals with their families

---

- Reclaims: 303
  - Dogs: 254
  - Cats: 49

# We worked with partners

**Number of rescue  
partners: 34**

**Animals  
transferred: 338**

Dogs: 141

Cats: 197

SECOND CHANCE FARMS

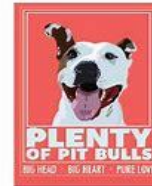

ANIMAL RESCUE

to did we work wit

FBRN  
FRENCH BULLDOG  
RESCUE NETWORK

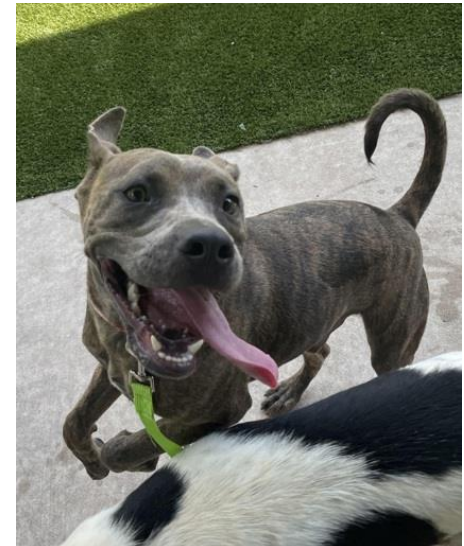

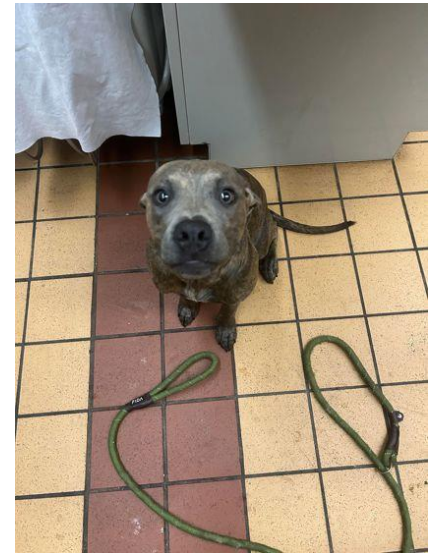

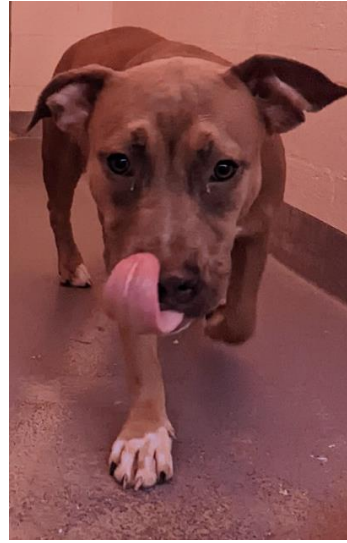

We sent animals  
to foster

- Animals sent to foster: 1,248
  - Fosters receive more frequent check-ins
  - Short-term fostering is being encouraged
  - Fun foster stats:
    - 562 dogs, 680 cats, 3 large rodents, 1 mustelid, 1 rabbit, 1 reptile
    - 513 underage/unweaned, 63 behavioral, 306 special needs, 194 foster-based, + more!

# Foster Successes

Alice, Stubby,  
Reebok

We  
EMPTIED  
THE  
SHELTER

# Hurricane Foster Success

- Hurricane Helene
  - 75 dogs went into short-term foster
  - 10 fosters extended the foster period
  - 12 dogs were adopted by their storm fosters
  - 5 additional dogs were adopted by someone the foster knew/found
  - 1 dog was pulled by rescue because of connections a storm foster had
  - Every single animal returned with in-home behavior notes

# Hurricane Foster Success

- 93 dogs and cats went into short-term foster
- 15 dogs, 78 cats
- 23 fosters extended the foster period
- 15 animals were adopted by their storm foster
- 7 additional dogs were adopted by someone the storm foster knew/found (one foster found an adopter in Massachusetts AND arranged transport there)
- 1 dog was pulled by rescue because of connections a storm foster had
- Every single animal returned with in-home behavior notes

The  
officers  
stayed  
busy...very  
busy

- Our officers responded to 6,410 calls
  - Abandoned: 325
  - Aggressive/dangerous: 407
  - Bites/scratches: 1,617
  - Confiscated (eviction, owner died, owner in custody, etc): 142
  - Cruelty/neglect: 411
  - Enforcement (inadequate care, leash law, leash law aggressive): 1,514
  - Miscellaneous: 237
  - Rescue (animal in vehicle, drain, dumpster, etc): 100
  - Stray (accident/injury, aggressive, school, etc): 1526
  - Transport: 59
  - Wildlife: 72

We  
executed  
events

- Bark in the Park: more than 130 animals microchipped and vaccinated
- Jax Mega: 20 long-term dogs adopted
- Summer Lovin': 85 dogs and cats adopted
- Whisker Wonderland: 47 adoptions during the kick-off weekend, 272 more during the month of December

# We did ADOPTIONS

- Unique adoptions:  
1,854
- Original animals:  
1,807
  - Dogs: 939
  - Cats: 868

We had to say  
goodbye

- Humane euthanasia/passed away: 282
  - Compared to 283 in 2023

**Live Release  
Rate: 91.04%**

# STANDARD OPERATING PROCEDURES

Medical

Drugs for Routine Spay & Neuter / Overview

Procedure No.: F-5-b

Effective Date: 5/1/22

Last Revised Date: 08/23/23

## Animal is limping or seems painful:

If an animal appears to be painful or limping, please alert Medical Team. Use the BEAP Pain scales (next two pages) for both cats and dogs to estimate the amount of the pain the animal is in. The following doses of medication can safely be dispensed to patients until a veterinary exam can be completed.

### *For Cats (BEAP scale of 1-4)*

- Injectable meloxicam – see surgery chart for dosing information.
- Oral Gabapentin Solution – 0.2mL/lb.

### **For Cats 9 (BEAP scale of 5-10)**

- Add Buprenorphine (0.3 mg/ml) – 0.1 ml/5 lb SC, IM, or IV
  - **Can only be prescribed by a veterinarian**
  - Can also be given orally – (submucosal)

### *For Dogs (BEAP scale of 1-4)*

- Gabapentin
  - In general, 20mg/kg, can be increased with veterinary approval.
- Carprofen - 2mg/lb daily
  - Dogs < 20lbs – see oral meloxicam (1.5 mg/ml) dosing guide for surgery.

### **For Dogs (BEAP scale of 5-10)**

- Add Buprenorphine (0.3 mg/ml) – 0.1 ml/5 lb SC, IM, or IV
  - **Can only be prescribed by a veterinarian**
  - Can also be given orally – (submucosal)-

Many signs of chronic pain are non-specific. Make sure to see your vet to rule out other disease as a cause of these signs.

<p><b>0</b></p> <p>No Pain</p>		<p><input type="checkbox"/> <b>B:</b> Breathing normally</p> <p><input type="checkbox"/> <b>E:</b> Eyes bright and alert</p> <p><input type="checkbox"/> <b>A:</b> Walks normally on all four legs; no lameness present</p> <p><input type="checkbox"/> <b>A:</b> Engages in play and all normal activities</p>	<p><input type="checkbox"/> <b>A:</b> Eating and drinking normally</p> <p><input type="checkbox"/> <b>A:</b> Happy; interested in surroundings and playing; seeks attention</p> <p><input type="checkbox"/> <b>P:</b> Comfortable at rest and during play; perky ears and wagging tail</p> <p><input type="checkbox"/> <b>P:</b> Enjoys being touched and petted; no body tension present</p>
