Request for Application for Special Projects and Community Enhancements (SPACE) Grant

Summary

The Alachua County Board of County Commissioners (hereinafter referred to as "Board") is seeking applications from **qualified non-governmental, non-profit agencies with current 501(c)(3) tax exempt status and with a physical business location in Alachua County** (hereinafter, referred to as "Applicant") for the Request for Application for Special Projects and Community Enhancements (hereinafter, referred to as "SPACE").

The following apply to this request for application: Instruction to Proposers, Terms and Conditions, Insurance, Scope of Work, Sample Agreement/Contract, Proposed Requirements and Organization, Request for Proposal Selection Procedures, Evaluation Phases, Attachments, and Application.

Purpose: SPACE is designed to leverage the expertise, resources, and services provided by our local non-profit 501c3 organizations to benefit Alachua County citizens at or below 150% of the federal poverty. All funds provided through this program must be used to directly benefit those living in poverty either through the provision of services or goods.

Background

Location: Alachua County is located in North Central Florida. The County government seat is situated in Gainesville. Gainesville is located 70 miles southwest of Jacksonville, 129 miles southeast of Tallahassee, 140 miles northeast of Tampa - St. Petersburg and 109 miles northwest of Orlando. Alachua County has a population of over 250,000 and a regional airport. The County itself consists of a total area of 969 square miles.

Form of Government: Alachua County is governed by a Board of five (5) elected County Commissioners and operates under the established County Manager Charter form of government. In addition to the five County Commissioners, there are five elected Constitutional Officers: Supervisor of Elections, Sheriff, Clerk of the Court, Tax Collector, and the Property Appraiser. The Alachua County Attorney also reports to the Board.

1. Eligibility

May 25, 2023 8:04 AM

Question: Are current recipients able to apply for this grant as well?

May 25, 2023 8:04 AM

Answered by Leira Cruz Cáliz, CAPM, CPPB: Yes, current CHOICES and CAPP recipients as eligible to apply.

May 25, 2023 8:04 AM

2. Funding Intent

May 25, 2023 8:05 AM

Question: Do you know if one-time project means funding a project that only occurs once or if means funding an ongoing project one-time?

May 25, 2023 8:05 AM

Answered by Leira Cruz Cáliz, CAPM, CPPB: The Commissioners have previously directed that the intent for this funding for one-time projects and capital improvements/expenditures, not to pay for ongoing programming or projects.

May 25, 2023 8:06 AM

3. Mental Health

May 25, 2023 8:53 AM

Question: Is mental health included in the funding categories?

May 25, 2023 8:53 AM

May 25, 2023 8:54 AM

4. Capital Purchases or Improvements Clarification

May 26, 2023 3:08 PM

Question: Is there additional guidance on what qualifies as "Capital Purchases or Improvements" beyond: "purchases with a unit cost exceeding \$5,000.00 and/or a useful life greater than 12 months" Are "costs exceeding \$5,000" collective or per unit?

May 26, 2023 3:08 PM

Answered by Jaye Athy: A capital purchase is any item that costs \$5,000 per unit or more and/or has a useful life of more than one year. It must also be an individual, stand-alone, movable or tangible item. Examples include: • Furniture • Equipment • Vehicle A capital improvement is a permanent structural alteration or repair to a property that improves it substantially, thereby increasing its overall value. That may come with updating the property to suit new needs or extending its life. However, basic maintenance and repair are not considered capital improvements.

5. Questions from SPACE Pre-Application Meeting 5/31/2023

Jun 5, 2023 9:17 AM

Question: Q: If my organization has multiple centers across the state or country and the EIN matches an address outside of the county, is my organization still eligible for the SPACE grant? A: Yes, if your organization has a center with a physical address in Alachua County you are eligible to apply Q: Can you download the application? A: Procurement will provide a pdf in the Addenda & Notices Tab. Q: Can you see what you are scored on? A: Yes, the application shows the criteria for scoring and the point breakdown, Section 6 Evaluation Phases Q: Where can we upload a schematic? A: A question was added in the Application Section where you should be able to upload any supplemental documentation Q: Can I apply for a different organization on their behalf? A: No. The organization that is signing the contract must apply, but you can assist them in the process of applying Q: Can you save the application and come back to it later? A: Yes, there is a save changes button where you can save your application. This will allow you to exit and pick it back up later. Q: Who is the Responsible Agent? A: This is whomever County staff will be in contact with the most for your program Q: Does the application require a signature? A: No, signatures will not be required in the application process Q: If an organization has current CAPP/CHOICES funding, does the SPACE application need to align with the current programs? A: No, the SPACE application can be separate from your organization's current programs receiving CAPP/CHOICES funding Q: Does the improvement or enhancement funded by SPACE need to be guaranteed to only be used by grant eligible recipients i.e., individuals under 150% of the Federal Poverty Level? A: The evaluators will consider the circumstances. For instance, if a permanent physical structure or enhancement is created, such as a playground, it would be impossible to guarantee only low-income individuals will utilize it. But if it is built in a low-income area that would be ok. With things such as vehicles or enhancements that aren't tied to a location, the percentage of qualifying individuals served would be taken into account. Q: Can SPACE funding pay for new admin expenses? A: SPACE funding may not be used for new programs or the administration costs of current programs. It was the BoCC intent that SPACE funding be used for one-time improvements that will not need additional funding after the grants end date. However, a one-time enhancement or improvement that involves administration expenses is acceptable such as training staff, certification processes etc.

- Portions of proposed project (rent and internet) are NOT capital expenses. - Portions of proposed project (Equipment at \$5,000 and potentially supplies at \$5,000, totaling \$10,000) ARE capital expenses.
- Proposed project will benefit residents at 150% FPL and lower - Rent amount is not a capital expense, but it's also questionably reasonable. The idea of the space is for non-profits to pool their resources allowing them to "reduce overhead costs." If each individual non-profit is going to be paying less in rent than they are now, why does the County need to pay for this, when the move itself is a cost savings move for all the participating organizations? (no point deduction for this, since rent is already not an allowable expense, since it is not a capital expense. But I've included the question as it's a concern.) - Equipment is a reasonable expense, and supplies as well if we can verify they are capital expenses and not part of a service program.

- Proposed project is reasonable given evidence of need - Requested budget appears achievable. - Deduction due to no supplemental materials showing quotes for such a truck. This makes it difficult to evaluate the achievability. The range of costs offered in the application are from \$47,000 - \$56,000, which is only partially within the range of this grant award. What are the applicant's plans if the price is above \$50,000?

- Proposed project is achievable given timeline and budget - The final paragraph in Question 12 gives strong support why this particular school is concerned about safety for its students. I see a strong evidence of need to make sure this location is a safe space for students. However, the link is not clearly made for how security cameras and cement blocks in windows will contribute to improving rates of community engagement, reducing challenges with relationships, and better grades and academic engagement. It sounds like the school has systems in place to support these needs (counseling, etc.) but the capital improvements requested in this application are questionable in their link to these services. - Clear link to other metrics discussed in Question 12, last paragraph, including reduced delinquent behaviors and reduced behavioral health risks (while on campus), but I question whether security cameras would reduce suspensions and expulsions--I could equally see these being more likely since the administration would be able to see every misstep from every student at all times.

- The applicant is a school, and they are arguing that students learn better in spaces where they feel safe, making the connection to quality childcare and education. The research I've seen agrees with their assessment--children learn better when they feel safe. - Deduction because there's an unclear link between security cameras and escape routes, and the quality childcare and education metric: I can see how additional security cameras could result in less vandalism and risky behavior (within the school). I don't see the clear link with better attendance and grades. Of the success metrics, grades and attendance have a stronger correlation with quality childcare and education. I am interested in whether this link exists, but in fairness to other applicants, cannot do the research myself. It would be on the applicant to prove this connection. - NOTE: Applicant put "Quality Healthcare" as the priority, but the application is not healthcare related, so I'm evaluating based on the education priority
