Rural Concerns

What Contributions do you feel you could make if you were selected to this board?
:

I've been working on statewide water quality and other water resources related issues specific to Florida since 2009. I am very familiar with the restoration programs that impact County residents, in particular implementation of the 3 Basin Management Action Plans (BMAPs) in which the County is a stakeholder. Among other things, BMAP requirements for remediation of nutrient loads from septic systems have potential to disproportionately impact rural residents. I welcome the opportunity to work with County staff on shaping policies for implementation of statutory requirements related to septic systems.
