**Strategic Guide:**

Social and Economic Opportunity

**Background:**

Per Board directive, the Court Services and Community Support Services Departments have been diligently working to assess and review areas of possible alignment. In this process, the Clinical Forensic Social Worker was identified as one of those positions that could be streamlined from the Court Services Department to the Community Support Services Department's Division of Social Services. This Case Manager II position will continue to support the jail inmates while incarcerated and upon discharge assist individuals to find support services available throughout the community.
