

Agenda Item Summary

File #: 23-00308

Agenda Date: 6/13/2023

Agenda Item Name:

Environmental Protection Advisory Committee (EPAC) Appointments

Presenter:

Mark Brown, Environmental Program Manager, 352-264-6815

Description:

Consider the five applications for four citizen-at-large vacancies and the alternate vacancy in the Environmental Protection Advisory Committee.

Recommended Action:

Appoint four citizens to full term citizen-at-large positions ending June 30, 2026, and one alternate to a full term ending on June 30, 2026.

Prior Board Motions:

August 27, 2019: Adoption of Resolution 19-84 extending the sunset date for the Environmental Protection Advisory Committee to December 31, 2025.

Fiscal Note:

N/A

Strategic Guide:

Environment

Background:

In 1984, the Board of County Commissioners established the Environmental Advisory Committee to assist and advise the Board of County Commissioners and the Alachua County Environmental Protection Department on environmental issues. The Committee is comprised of 11 members and one alternate serving three-year terms. There are currently three vacancies in the Committee and two additional terms ending June 30, 2023. By selecting four citizens for full terms and an alternate, this will result in providing an appropriate variation of experience, knowledge, and tenures of committee members.
