

IMPACT ANALYSIS FOR NEXTOWER SPECIAL USE PERMIT FOR SELF-SUPPORTING PWSF

LOCATION – PARCEL#07605-000-000

The proposed cell tower will not result in any impacts to public facilities including the following:

1. Traffic – The cell tower will not require any traffic impacts. Traffic will be limited to during the time of construction or when limited maintenance is required. Cell tower will not generate any measurable daily or peak hour traffic impacts.
2. Potable Water – The cell tower will not require connection to potable water service.
3. Sanitary Sewer – The cell tower will not require sanitary sewer and this area is not served with sewer. No septic tank use will be required.
4. Solid Waste – The cell tower will not require solid waste service.
5. Public Schools – The cell tower will not generate any impacts to public schools. There is no residential component to the project.
