

Paul Moccia

I am the owner of Lot 25 in Gloria's Way. A portion of this development in Phase Two will be located behind my property. I wish to know more about the natural buffer between the Road I and my home the actual (setback). I wish to know the distance from the back of my property (Lot 25) to the home scheduled to be built on lot 75 during Phase Two. I wish to have more of the natural barrier than what is being outline in the General Index description behind Lots 24 through 28. I wish to know more about the amount of traffic that will be entering Roads E and G. I would hope that the construction trucks will not be driving through Gloria's Way. Further questions may come as the Phase Two is development and a clearer explanation of Phase One is presented during the hearing.
