QUESTIONS AND ANSWERS

1. Price Increases terminology

Oct 27, 2022 10:14 AM

Question:

this bid states that any increase in cost shall not increase by a greater percentage than the percentage change in the Consumer Price Index or 5% whichever is lower. Due to the volatility of the pharmaceutical industry, manufacturers often change price without notice. These prices are often exceeding the CPI and we are contractually mandated to comply with these price increases. Would you be willing to remove this terminology from their bid and we will provide manufacturer documentation when we receive it?

Oct 26, 2022 10:10 AM

Answered by Mandy Mullins:
