

Agenda Item Summary

File #: 23-00769

Agenda Date: 12/12/2023

Agenda Item Name:

Renewal of Inter-Local Agreement ASS81 with Florida Department of Transportation for Main Street Detention Pond Outflow Filter

Presenter:

Shane Williams, Environmental Professional Engineer, 352-264-6831

Description:

This agenda item is to approve the renewal to the agreement with the Florida Department of Transportation (FDOT) extending the grant period by one year.

Recommended Action:

Approve the renewal and authorize Chair to sign the amendment.

Prior Board Motions:

May 24, 2022 – The Board approved the original inter-local agreement.

Fiscal Note:

Neutral. This is a no-cost renewal extending the term of the agreement, the Department of Transportation's cost sharing responsibility to compensate the County up to \$86,000 shall be extended to December 31, 2024.

Both the revenues and expenses of \$86,000 are included in the FY24 budget in Fund 260 (Water Conservation Grant Fund) and associated with project 8205502: Main Street Detention Pond Outflow Filter.

Strategic Guide:

Environment

Background:

The County-owned wet detention pond is located at the corner of NE 4th Street and NW 35th Avenue. The detention pond discharges into the Hogtown Creek System and receives runoff from commercial and industrial areas along North Main Street. The County has designed and permitted an outflow filter which will increase nitrogen and phosphorus removal from water discharged from the detention pond. FDOT has agreed to contribute \$86,000 towards the construction cost. This renewal extends the deadline for completion of the project one year to December 31, 2024.
