What Contributions do you feel you could make if you were selected to this board?:

I am particularly passionate about healthcare disparities, and this is why I also hope to attend medical school in the future. As a part of the Health Care Advisory Board, I believe I can make a meaningful impact on my local community firsthand without a medical license. By being a volunteer in numerous free clinics in the southeast, I have a unique perspective and experience that I can bring to the table. Armed with the countless struggle stories I have heard from patients at these clinics, I hope to blend my knowledge around the southeast corner of the US to facilitate change in my own backyard, here in Alachua County.
