**Strategic Guide:**

Infrastructure

**Background:**

The City of Gainesville is constructing a new SW 62<sup>nd</sup> Blvd Connector from county owned SW 20<sup>th</sup> Ave right-of-way in the north to Clark Butler Blvd in the south. The topography of the area required upstream stormwater quantity compensation, which the City accomplished by allowing County stormwater discharge from SW 20<sup>th</sup> Ave into the new City stormwater management facility along SW 62<sup>nd</sup> Blvd.

The City Commission has executed a Drainage Easement to the County for this purpose. The City will have primary maintenance responsibility for the easement area, and the County will have the right to perform emergency maintenance, if necessary.
