**Strategic Guide:**

Public Safety

**Background:**

The State of Florida, Division of Emergency Management (DEM) has forwarded the 2024-2025 State-funded EMPA Agreement to Alachua County. This is a cost reimbursement agreement designed to enhance the local emergency management program. The 2024 Florida legislature approved an allocation of \$105,806.00 to Alachua County for a twelve (12) month period beginning July 1, 2024, and ending June 30, 2025.

The Emergency Management Section has two primary annual non-County funding sources. They are the EMPA and the Federal grant program entitled the Emergency management Performance Grant (EMPG). The Emergency Management Section has been a recipient of both the State and Federal grants since the programs were created. All grant funds are used to maintain and enhance the Emergency Management program and its functions.

During a desktop monitoring review by the Florida Department of Emergency Management, it was recommended that the County utilize EMPA grant funds for personal services expenses instead of operating and capital expenses to ease the grant monitoring and reporting burden for both DEM and the County.
