Re: AE joining WSB

To Whom it May Concern:

WSB LLC ("WSB"), one of the nation's fastest growing infrastructure engineering and consulting firms, announced the acquisition of AE Engineering, LLC ("AE"), a high-growth transportation infrastructure engineering firm based in Jacksonville, Florida. The strategic addition of AE will solidify WSB's presence and service offerings in the southeastern United States. The partnership represents progress towards WSB's strategic growth goals and will strengthen the firm's presence in the southern and western United States.

The acquisition of AE brings 13 offices and more than 170 employees into WSB across the Southeast. Combined, WSB now operates 49 offices with more than 1,250 employees nationwide to serve its clients across the government, commercial and energy markets.

Although we have a different brand, the foundation, expertise and technical excellence and experience of our staff remains. We are strategically adding new capabilities that complement our existing service offerings and expertise.

Benefits to you, our clients:

- The same project managers with a deeper bench of talent and expertise behind them to better support infrastructure needs and challenges.
- Access to cutting-edge technology that is changing the way projects are being delivered.
- The combined experience and best practices of some of the industry's leading experts.
- The support of a full-service design and consulting firm with the addition of a full suite of services that include not only transportation and city engineering, but also environmental, technology and energy.

We're building on our successful model of combining local market knowledge and relationships with the power, expertise and capabilities of a national firm. We are committed to putting people first and creating opportunities to excel and serve our clients better.

WSB will continue to honor all previously agreed upon pricing related to Agreement #13936 with Alachua County - Construction Engineering & Inspection (CEI) Services for SW 170th Street (CR 241) Widen & Resurface from Levy County Line to SW 143rd Street.

Sincerely,

WSB
Bret Weis
President & CEO
