Apr 29, 2024 2:22 PM

Answered by Precious Merriweather: There are no character limits for responses.

2. building costs

Apr 29, 2024 2:27 PM

Question: In the past, we were approved to submit costs for program space as they relate to utilities, pest control, etc. if the costs were prorated based on the amount of space used directly for program services. In our building, 80% of the building is dedicated to providing direct services to the target population. The remainder is dedicated to operations. Are will still able to include pro-rated building cost in our request this year?

Apr 29, 2024 2:27 PM

Answered by Jaye Athy: General building maintenance costs (including pest control) are not reimbursable. Utility costs are reimbursable only if the utilities are used directly by participants.

Apr 29, 2024 3:19 PM

3. number of applications

Apr 29, 2024 2:33 PM

Question: May we submit one application for one funding priority and and additional application for another funding priority. We are glad to submit a consolidated application if there are no character limitations for the om-line application.

Apr 29, 2024 2:33 PM

Answered by Precious Merriweather: There are no character limitations for this RFA. Please reference Section 4.1 Application Submission. Only one application per agency will be accepted. You may combine programs within an application for different funding priorities. Applications will be evaluated on their overall merit.

Apr 29, 2024 3:19 PM

4. Pest Control

Apr 29, 2024 3:30 PM

Question: We are required by HUD to provide monthly pest control in all shelter spaces for the target population to ensure we are providing a livable and healthy space for residents. We are required to

provide pest control by the Health Department in the kitchen and dining areas. If this cost is pro-rated to reflect only the % of space for direct program costs as described above, is this an allowable cost?

Apr 29, 2024 3:30 PM

Answered by Jaye Athy: Pest control is not a reimbursable expense. Another funding source would have to be used for this expense.

5. CAPP application for current CHOICES contractors

Apr 29, 2024 4:43 PM

Question: In Section 4.1 Application Submission (page 14), there is the statement: "Agencies may not currently be in receipt of any designated BoCC funding." Please clarify. This statement contradicts what was presented at the CAPP Webinar on 2/15/24 (page 6 of the powerpoint presentation) and also presented/approved by the Board of County Commissioners at their 2/27/24 meeting. The Webinar powerpoint said that agencies currently receiving CHOICES are eligible to apply for this CAPP RFA (grandfathered in), but cannot apply for CHOICES in the next cycle. Our organization currently receives CHOICES funds, but not CAPP. Please confirm that we are eligible to apply to this CAPP RFA 25-198-PM.

Apr 29, 2024 4:43 PM

Answered by Jaye Athy: Designated funding refers to the Board of County Commissioners providing funding to an agency outside of CAPP or CHOICES. It is correct that agencies currently receiving CHOICES funding are grandfathered in and may apply for CAPP in this cycle, however, they will not be eligible for CHOICES in the next funding cycle.

6. Supplier Profile

Apr 29, 2024 4:43 PM

Question: On the Supplier Profile page of the web-based application, are RFA applicants required to upload any documents at the bottom of the page (i.e., W-9, insurance, other documents)? If yes, please clarify "insurance."

Apr 29, 2024 4:43 PM

Answered by Precious Merriweather: The documents required for this RFA can be found under Section 7. Submittals, Question 13.

May 6, 2024 9:51 AM

7. Application scoring

Apr 29, 2024 4:45 PM

Question: In Section 5: Evaluation Phases (pg 20), in the fourth paragraph it states: "Proposals scoring 160 and above are assigned a maximum percentage funding." However, the chart at the bottom of the page says that scores of 180-215 are recommended at 100% of the agency's funding request. Please clarify.

Apr 29, 2024 4:45 PM

Answered by Precious Merriweather: Please reference Addendum #1 which corrects the scoring. The Evaluation Committee evaluate and score all applications not removed from the process during the screening phase. A maximum total score of 215 points is possible, based on an agency's responses on its application. Once the final score is calculated, any proposal scoring at or below 139.9 is not eligible for funding. Proposals scoring 140 and above are assigned a maximum percentage funding recommendation, based on the score received. Regardless of an Applicant's designated award amount, however, the Evaluation Committee is not obligated to recommend a program for funding at any level and there are no guarantees a program will be recommended for funding.

EXECUTIVE SUMMARY

RFA No. RFA 25-198-PM

Community Agency Partnership Program (CAPP)

Question: Funding Intent 1. It is the intent of the Alachua County Board of County Commissioners that CAPP funds be used ONLY for the benefit of program participants. Applicants must clearly demonstrate and adequately document how the program, service or goods directly provide for the participant basic need and reduce the participant symptoms of poverty. 2. CAPP funding is not intended for “the cost of doing business” expenses. 3. Funds are not to be used to maintain, enhance or enrich the agency; they are to be used to enrich the program participants only. Funding requests deemed solely or primarily as maintaining, enhancing or enriching the agency will not be approved. 4. The program should have its essential operating elements and equipment already in place, as these are not funded by CAPP. 5. Funding is only available for agencies that are providing services, programs, or goods directly to participants. Just for clarification purposes regarding allowable utility costs: Of total costs for utilities, 20% of the total costs are consumed by administrative staff. Of total cost, 20% are allocated to providing adequate food for shelter residents and community meals for unsheltered homeless to provide utilities for cooking food (gas), holding prepared food in warming dishes to maintain safe food serving temperatures, washing dishes to maintain Department of Health Standards to provide safe food, lights, HVAC, electricity to maintain safe storage temperatures for perishable and non-perishable food items. Our food service directly benefits the target population by immediately reducing the symptoms of poverty and providing services directly to participants. Of total utility costs, 60% are allocated to providing shelter residents running water for drinking, bathing and toilets; sewage fees; electricity for HVAC; personal refrigerator storage; lights; and computer lab access including printers (electricity only for the purpose of this question). This service directly benefits the target population by immediately reducing the symptoms of poverty and provides services directly to participants. Further, of all waste disposal costs, 90% of all costs are allocated to food services for shelter residents and community meals. The remaining cost is split evenly between administrative staff and shelter residents. This service directly benefits the target population and provides services directly to participants. Additionally, the cost for internet access is allocate to 20% for shelter residents, 5% for unsheltered homeless, 30% for program staff providing direct service to participants (accessing and communicating with other programs/agencies to provide direct services that directly benefit program participants), and 45% to administrative staff. Cost for internet access for shelter residents, unsheltered homeless, and program staff providing direct service directly benefits the target population and provides services directly to participants. I honor that you would like one question at a time. However, the above revolves around one question: Are pro-rated shelter (not administrative) operating costs funds eligible for CAPP if they directly provide those services to the target population and/or provide services that benefit the target population eligible for CAPP funds. HUD’s ESG allowable cost for Shelters include the following: maintenance (including minor or routine repairs), rent, security, fuel, equipment, insurance, utilities, food, furnishings, and supplies necessary for the operation of the emergency shelter. I know that maintenance costs are not eligible through CAPP as stated in the RFP. In gratitude!

May 2, 2024 4:15 PM

Answered by Jaye Athy: Utilities (including internet) that are used/consumed directly by participants are eligible for reimbursement.

May 3, 2024 5:11 PM

Question: I am happy to see that we may now provide two separate budgets for different funding priorities. TY. However, within the narrative section of the grant I fear we will lose points (and interest of the evaluators) because we are addressing two funding priorities, each program needs to address not only the program questioner , which includes the evaluation criteria required for each individual program, which are quite lengthy. I feel I have correctly, clearly and concisely identified the required information for each program in my narrative. I am concerned that agencies only requesting funding in one priority category will receive a higher score than those agencies requesting funding for two funding priorities due to brevity of their applications and the length of ours. The RFP states you "may" not required to submit only one application for each agency. You have successfully addressed the need for clarity in the budget need of each program for the evaluators and procurement. Is there anyway you can revisit the the need to submit one application per agency?

May 3, 2024 5:11 PM

Answered by Jaye Athy: Each agency may only submit one application. It is up to the applicant to decide which program(s) or service(s) is most suited to consideration for CAPP funding.
