investments that enhance the economic productivity of my operation. (yes / no) $Yes$	If awarded the funding will only be used to purchase equipment or other capital	
	investments that enhance the	e economic productivity of my operation. (yes / no) Yes

Explain what equipment is needed, its cost, how it will be utilized, and economic return to your operations.

If you have taken the Extension Office's Agricultural Entrepreneurial Series, please attach your Farm Plan. (5 bonus points) Attach additional pages if needed.

We will use this grant to manage the weeds between rows throughout the farming year. We believe that by using a row/bed cultivator, we will save \$1,250 on the chemical cost and \$1,000 on the labor cost per season at our farm.

This funds will be used to purchase a customized row cultivator that costs around 8k where it ranges between 5k-10k. It depends on how many rows it would cover. This equipment is made by Kennco Manufacturing Inc in Ruskin, FL. According to the Kennco company, growers who have used the is equipment, they will be able to notice a significant increase in the yield production, and a reduction in the labors cost, and the chemical usage.

I have taken the extension office's Ag Entrepreneurial series, but I could not find the farm plan due to some technology issues. I attached the certificates of completion to this email.

I certify that I am an Alachua County resident, have an agricultural exemption, and that all information in this grant application is true and correct. I understand that any errors, misrepresentations, or omissions in this application may result in the application not being considered, points reduced, or if discovered after the award, that the grant funds may be reimbursed to Alachua County.
