

Agenda Item Summary

File #: 25-00075

Agenda Date: 1/28/2025

Agenda Item Name:

Facilities Operations Update: Progress and Priorities for Jail Maintenance

Presenter:

Travis Parker, Facilities Management Director, 352-359-8017

Description:

Update on jail maintenance operations, including completed and ongoing projects, along with an overview of the proposed renovation budget to facilitate a discussion related to a long-term maintenance plan.

Recommended Action:

Presentation only, no action requested

Prior Board Motions:

N/A

Fiscal Note:

No additional funding is required beyond what has already been presented as in progress.

Strategic Guide:

Infrastructure

Background:

The condition of the jail and the associated maintenance and repair needs have been a topic of ongoing discussion by the Board. These discussions have highlighted concerns regarding the aging infrastructure, deferred maintenance, and the increasing demand for repairs to address safety, operational efficiency, and compliance with applicable standards.

The facility's current state has prompted staff to assess immediate and long-term maintenance priorities, while also exploring potential strategies to mitigate the risks associated with deteriorating building systems and infrastructure.

This agenda item is intended to provide an update on these efforts and seek Board directions on the next steps to ensure that the facility remains safe, functional, and capable of meeting the needs of its operations
