PERFORMANCE MANAGEMENT

Purpose: To establish the framework for the County’s commitment to performance management.

Policy: Performance Management has specific guidelines and best practices documented by the Government Finance Officers Association (GFOA) and the International City/County Management Association (ICMA). Performance Management is mandated to receive any Federal grants and/or pass-through grants as described in the Federal OMB Circular (2CFR Chapter 1 and Chapter 2 Part 200) Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards. Additionally, Performance Management is considered as part of Florida State Statute 212.055(11) Performance Audit, where any jurisdiction requesting consideration of a discretionary sales surtax referendum would have to submit to a performance audit including program efficiency, effectiveness, goals, objectives, and performance measures used by the program to monitor and report program accomplishments.

Alachua County’s performance program is managed by Budget and Fiscal Services. The program ensures performance results support identified strategies and requires regular reporting of the County’s performance efforts and outcomes.

Performance management improves organizational capacity by providing managers with data on established measures and operational performance. Performance data empowers managers by supplying data and information necessary to make effective, efficient, and timely management decisions to achieve desired results.

Performance management is a powerful tool used to integrate strategic planning, multi-year departmental planning, budgeting, and management with evaluation and reporting in a system that helps create an accountable, transparent, and responsive organization.

Department Responsibilities:

1. Document alignment of departmental performance to the County’s Mission, Values, Board Level Strategic Guide, and Comprehensive Plan.
2. Set program deliverables and ensure operational priorities match those of the community via the Board’s guidance.
3. Develop meaningful measures, focusing on key performance indicators and outcome measures, to gauge program success and inform future policy and budget decisions.
4. Increase organizational coordination to eliminate waste and duplication.

5. Make data available to the public periodically through the annual Adopted Budget documents, presentations to the Board, and the County's website thereby keeping government accountable and transparent to all stakeholders.
