

Thank you for the opportunity to be considered for the Rural Elected Official position with the MTPO. I serve as Mayor pro tem of the town of Micanopy and have been a clinical social worker at UF Health since 1998. I work to solve the transportation needs of my medically fragile patients and am concerned for the citizens of our rural communities who have no transportation to address medical, food or personal needs. If chosen to serve as Rural Elected Official with the MTPO I would bring my experience with serving a small community in our county as well as serving the needs of the medically fragile.

Thank you,

Kevin Putansu
