**Background:**

The Preliminary Development Plan for Flint Rock, including Open Space and Conservation Areas, was approved by the Board of County Commissioners (BoCC) on June 9, 2020. The Development Review Committee then approved the Final Development Plan on October 15, 2020 and the BoCC subsequently approved Plats for three phases. A Construction Permit was issued Feb 8, 2021 for Phase 1 and then on February 15, 2023 for Phases 2 and 3.

The Phase 1 Plat was recorded in March 2021. In 2024, Phase 2 was divided into subphases and revised Plats for Phases 2A and 2B were approved by the BoCC. Only Phase 2A was recorded. The applicant is now applying to revise Phase 2B to include some of the lots previously shown in Phase 3.

No changes are proposed to the approved development plan layout or infrastructure; changes are only proposed for which lots are included in the platted phases. This affects when lots are recorded and can obtain building permits. The applicant will apply at a future date for the remaining lots.
