**Background:**

The Citizen Climate Advisory Committee (CCAC) provides an opportunity for citizen involvement in climate change issues and concerns affecting Alachua County, the City of Gainesville, and the surrounding municipalities. The committee advises the Joint Water and Climate Policy Board on bold and innovative climate adaptation and mitigation strategies, policies, and target goals. The committee also engages with relevant stakeholders, agencies, non-profits, and the community to ensure that neighborhoods and communities that are most impacted or disadvantaged by climate change are taken into account in the development of policy recommendations and action strategies. The committee will also assist the County, Gainesville, and other municipalities within Alachua County in the promotion of greater community awareness of climate-related issues and involvement in government climate resiliency initiatives
