SWRR has tentatively budgeted for FY26 \$230,000.00 in account 405.76.5541.537.31.00 (Professional Services)

**Strategic Guide:**

Environment

**Background:**

The Alachua County Environmental Protection Department currently operates a permanent Hazardous Waste (HW) Collection Center at 5125 NE 63 Avenue, Gainesville, where Alachua County residents can properly dispose of their Household Hazardous Waste six days a week. Additionally, Conditionally Exempt Small Quantity Generator (CESQG) waste is currently accepted as well. In addition to the permanent facility, the County also operates five Rural Collection Centers throughout the County and holds multiple mobile HHW collection events within Alachua County each year.

Materials collected at the satellite facilities will be transported to the HW Collection Center and

incorporated into the existing inventory. Wastes collected at these facilities will be identified, bulked, lab packed, neutralized, recycled, labeled, packaged for shipment or otherwise managed by the County. Drums and containers will meet or exceed all state and federal regulations. Materials may be Hazardous Wastes, Universal Wastes or Non-Hazardous Wastes. HHW and CESQG wastes will be commingled and will no longer be identifiable or separable once packaged by the County.

Bid 26-193-MM Annual Transporting and Disposal of Hazardous Waste was released March 19, 2025. The deadline for receipt of Bid 26-193-MM Annual Transporting and Disposal of Hazardous Waste was April 30, 2025; three (3) vendors responded.
