What Contributions do you feel you could make if you were selected to this board?:

I am a UF student and use a bicycle as my primary form of transportation between campus, the surrounding city, and even as far as Hawthorne trail. Additionally as a member of the schools run club I have had the chance to run on nearly all the sidewalks around the midtown and downtown areas of the Gainesville. As a result, I share the same perspective, and needs of the young professionals of the UF area who unlike the rest of the county often don't possess cars and outside of public transportation entirely depend on pedestrian walkways to move around the city. If this advisory board were to induct me I could act as the voice for this population and their unique needs on the county level.

Please Agree with the following statements:
