Strategic Guide:

All Other Mandatory and Discretionary Services

Background:

On February 14, 2020, Alachua County entered into an agreement with Zoll Data Systems, Inc. for clearinghouse and claim services using their Payor Logic (AR Boost) system to provide insurance discovery and eligibility information, demographic verification, and electronic claims submissions. This software platform is integrated with the Respond billing software system which provides a more seamless process for demographic and insurance verifications.

These services have been verified as being exempt from the County's formal bidding and request for proposal processes, pursuant to Chapter 22 of the Alachua County Procurement Code.

The addendum agreement extends the services through May 2026, a 36-month term, with monthly fees of \$5,071.50. The costs for this service were included in the FY23 budget.
